JOINED J+

DEVELOPER COMPETITION
Develop your own ...

1. Place iPhone 4s *or similar phone*

Joined

- Location-Based Gaming Platform
- Festival Guide
- Student Learning Community
- Citizen Observatory Campaign

Joined is developed in the Haptimap project and helps you to **locate your friends**, to **exchange meeting points** and to **chat with your friends**.

Joined is available **for free** on the **App Store for iPhone** and **Google Play for Android**.

HaptiMap

The **Joined API for iOS and Adnroid** enables you to build your own applications based on the Joined infrastructure.

DEADLINE FOR SUBMISSION IS 16. AUGUST 2012
